

CSS Selectors

The Basics: Element, ID, and Class

Class Selector

Selects all elements with a given class

```
<div>  
  <p class="highlight">You say yes</p>  
  <p>I say no</p>  
</div>
```

```
<div>  
  <p class="highlight">You say goodbye</p>  
  <p>I say hello </p>  
</div>
```

```
div{  
  background: purple;  
}  
  
.highlight {  
  background: yellow;  
}
```

You say yes

I say no

You say goodbye

I say hello
